Polish Corks 2019 – GOLD
AWC Vienna 2017 – GOLD
Polish Corks 2022 – BRONZE
AWC Vienna 2019 – GOLD
Polish Corks 2017 - GOLD

## TERROIR

Winnica Turnau is located in Baniewice, in the southwestern part of the West Pomeranian Voivodeship. This unique region is influenced by air masses from the Atlantic Ocean and the Baltic Sea, as well as the proximity of the Oder River. All these factors shape a climate characterized by a long growing season, warm summers, and mild winters. Such conditions favor the cultivation of demanding grape varieties, allowing them to reach optimal ripeness while maintaining high acidity. Our region is distinguished by a rich network of oxbow lakes, gently rolling moraine hills, and an abundance of flora and fauna. The vineyard is situated on a moraine hill, where the predominant soils are sandy-clay, clay, moderately compact, and moderately permeable. This terroir, combined with ecological viticulture, results in grapes of exceptionally high quality.

## WEATHER DURING THE GROWING PERIOD

The winter of 2024/2025 was mild, with only limited snowfall. Spring was dry, and the lack of water at this stage was not favourable for vine development. In April, frost events lasting more than a week brought temperatures down to −6°C, resulting in reduced yields later in the season. May was cool and did not support vigorous vine growth. Flowering began in early June. July was exceptionally hot, while heavy rainfall persisted through the first half of August.
